It has repeatedly been asserted that THE One onlan has misrepresented the effort to expel the Chinese But in fact it has simply recorded events It did, indeed, largely fire tell what has been recorded us the aventalities transpired and the events, as they have been successively developed, have been little more than the fulfillment of its prophecies, utigated these forms.

The 'agitation in the Northwest began at Fuget sound Local meetings were held in that section, and at last a "congress at Seattle, by which resolutions were ad speed declaring that the thinese must 'go on a relative accertain faced day. The agitation was transferred 1 Oregon Local meetings were held at several places and u o greet was called at P ri'ani like to that which had asat Prinni like to that which had us-sembled at Seattle and bad prepared the way to lawlessess and at these Again The Oblanta-MAN put forth its warding. The declaration that the Chinese must be gone from Portland by a fixed date could only meen that if they were not gone furtible exputsion would be a-templed, and that would mean disorder, riot, bloodshed. Besides, the whole show was an bloodshed. Besides, the whole thing was an assault upon the laws of the United States and of the state, and what this would come to it required no remarkable saplence to tell.

Presuminary to it there has been an effort to

drive the Chinese into Portland from all surrounding points and localities A history of these outrages as perpetrated from day to day or rather from night to night, by maskel ref flans, has been given in the columns of this paper, accompanied by such comments as the magnitude of the lawless outrages called for In all this there has been no word of misreproseniation. Even the naked facts have been only scaptly reported, from the difficulty of obtain

scantily reported, from the difficulty of obtaing them from the victums of outrage. In no sense therefore, has THE ORRIGOMAN Unstrept dented the effort to expet the Chinese. Silence would have been less troublesome un doubtedly. Most men find it agreeable to dodge an emergency when they can. But what is the duty of an independent, courageons and responsible newspaper in such a crisis? It must speak and since it must speak it must speak in the right side. It must mobile order and law be right elde. It must uphold order and law It must remain the people of their duty to the laws of the country. It could be no otherwise than say that the programme if attack upon a people who were here under freaty that pledges bem protection was rebellion against the United States, and would be not and suppressed at the cost of any price of life. Though the effort be ignorably made, and made Though the elect be ignorably made, and made even in conscientions ignorance, it will come to the same failure. There is no miracle here. If men would become prosperous they must conform to the conditions it at make prosperity possible. That some do its and a me do not, marks in this cases out of ten the difference be tween those who attain to properly and those who fail to attain it. Man cannot wate the days of his blessed youth, and spend the years days of his blessed youth, and spent the years of his stronger manhood in the wise of impro-vidence, working only irregularly and de of tority, and spending his wares it intervise of liflences, frivoity or dissipation, and expect t gain that accumulation which slowly has mes the basis of the ependence. And it is presum ; fuous to expect it. The Maker of man has not made man's relations to the order of the universe an absurdity, a cheat are a lie. Those relations are under the grunnment of certain definite and rational laws. AN ILLUSTRATION AND A WARNING

As has been stated often through these col umns, THE CRES ONLY does not deny the right of labor to organize On the contrary, it regards organization as not only an uncusation able right, but a proper method of meeting the tendency of capital to combine and concentrate for no of explant to combine and contentrate for no offer way can the rights of those be maintained. THE INTRODUCTION NOT GENERAL

The spirit of outlawry that has been engen i erel at d fostered in this city by arti cool e use ciations, and disreputable aurmahim, does not extend in any considerable degree to other sec-tions of the state. The gathering of awless men in this city in response to the invitation of muchlef breeders and invicontents is a matter well understood. That they have not mut with encouragement sufficient to warrant t em m concentrating it office points in the state is equally true. Othere are employed in mot other localities, and in many metuces a considerable numbers, but the same entrement in the way of properly to be plundered does not exist in these localities that is found in a basi ness center, hence the agitator does not toink it worth while to work an isolated field or his with while to work at sacated field of his inviess followers to swarm there, rendy to take possession in the swent of turnet. The local press in every hamlet in the Wil ametic valley gives weekly testimony to this effect. The aginter is not only not invited to these localities to str up strife, but he is distinctly told that his to strip strie, but he a distinctly volument in presence is not wanted and will not be permit led. Puring the last ten years American hivest ments in China have been increasing at a very rapid rate. They now exceed \$50,000,000. These investments are under the management of Americans resident in China, who have been of Americans resident in China, who have been filled with alarm at the suggestion of retaplation on the part of the Chinese government for the treatment which the Chinese in the United States have been receiving.
